Delivered with Care	5
Followed Instructions	4
Friendly	4
Above & Beyond	4

Focus Area & Guidance

Customer Delivery Feedback - Always read the customer notes before executing a delivery! These notes will aid you in the delivery and help to ensure your success. When in doubt, call customer support or call/text the customer for guidance on how they want their package delivered. Lastly, if you ever interact with a customer directly, smiling and being courteous will generally help your CDF score.
